

Helping at home with Digital Literacy

- Take digital photographs and then discuss and describe scenes or objects to develop speaking and listening.
- Help your child with their blogging - fiction/non-fiction/reports etc. Try uploading images that are relevant.
- Support homework projects with digital content.
- Help your child to engage online with their class using email and documents (KS2)
- Discuss the need to check the quality and reliability of information found on the internet
- Keep in touch with what your child is doing
- Know what games or apps they are using/ try the game or app yourself
- Be the person they tell if they experience a problem online
- Set up Parental controls and safe searches.
- Teach your children to ask if they are going to click something
- Use the Smart Rules and adapt them to your household.
- Model good practice - Keep your passwords complex and don't share them with your child
