

Reception Learning Activities

Phonics	<p>Practise all your sounds using the phoneme flashcards in your home learning pack. Can you teach your grown-up the actions to go with each sound?</p> <p>Practise all your tricky words using the tricky word flashcards.</p> <p>Read your reading books with a grown-up. If you have read all the books, go to oxfordowl.co.uk for some more free reading books. Go to Ebook Library, Levels, Letters and Sounds. Under the Letters and Sounds title, you will find books linked to our phonics teaching. Look at your school phonics reading books to see which Phase your child is on. Reception should be on Phase 2 or 3.</p> <p>If you want an extra challenge: have a go at the Phonics Phase 3 Home Learning Challenges I have attached.</p> <p>Record your reading in your reading log.</p>
English	<p>Read the letter I have sent you telling you all about my week at home.</p> <p>I would like you to write me a simple letter telling me what you have been doing at home. This can include a picture of the best thing you have done last week at home and a written sentence to go with this. Please write who the letter is from.</p> <p>Grown-ups: encourage your child to hear the sounds in each word they want to write and then remember how to write that sound or use their sound mat to help them.</p> <p>If you want an extra challenge: can you write some more sentences to go with your picture?</p> <p>Please send me a photo of your work. I would love to read your letters!</p>

Maths

Practise counting to 20 using your number track. Try and do it backwards.

Today in maths we are thinking about **repeating patterns**.

To get started go to

<https://www.topmarks.co.uk/ordering-and-sequencing/shape-patterns>

Start on Level 1

Grown-ups: show your child how a pattern repeats itself. Spend some time playing the game.

Have a go at the pattern worksheet I have attached. If you can't print it off, your child could draw some repeating patterns in their home learning book or use lego/duplo to make some repeating patterns.

How complicated can you make your pattern?

Can you start a pattern for your grown-up to finish?

If you want an extra challenge: try Level 2 or 3 on the computer game.

You could send me a photo of your learning.

Year 1 Learning Activities

Phonics	<p>Practise all your sounds using the phoneme flashcards in your home learning pack.</p> <p>Practise all your tricky words using the tricky word flashcards.</p> <p>Read your reading books with a grown-up. If you have read all the books, go to oxfordowl.co.uk for some more free reading books. Go to Ebook Library, Levels, Letters and Sounds. Under the Letters and Sounds title, you will find books linked to our phonics teaching. Look at your school phonics reading books to see which Phase your child is on. If your child has finished the Phonics books, then they can read books from Phase 5 or 6.</p> <p>If you want an extra challenge: have a go at the Phonics Phase 3 or Phase 5 Home Learning Challenges I have attached.</p> <p><i>Please record your reading in your reading log.</i></p>
English	<p>Read the letter I have sent you.</p> <p>I would like you to write a letter back to me telling me about what you have been doing at home. Please include all the things I have in my letter, like the date and who the letter is to and from.</p> <p>Remember to use your best handwriting, forming your letters correctly. Use the sound mats to help you with spelling words.</p> <p>You can add some drawings if you wish.</p> <p><i>Please send me a photo of your letter. I would love to read it!</i></p>
Maths	<p>Practise counting in 1s to 50 using your 100 square. Can you do it backwards?</p>

Today in maths we are going to have a go at **measuring in centimetres (cm)**.

Grown-ups: if you have got a ruler or tape measure in the house, please can you show your child how to measure in centimetres cm. Show them how to do this **accurately**. If you have not got a ruler or tape measure, I have provided one to print out or go to the measuring game below and show your child how to measure using a ruler. Can you show your child how to write the measurement as **cm**.

Go to <https://www.topmarks.co.uk/maths-games/measuring-in-cm>
Start with Level 1

Have a go at this game or practise measuring objects around the house. You can measure as many things as you like.

Then have a go at the measuring worksheet I have attached. The questions get harder as you progress. You can choose which questions to answer.

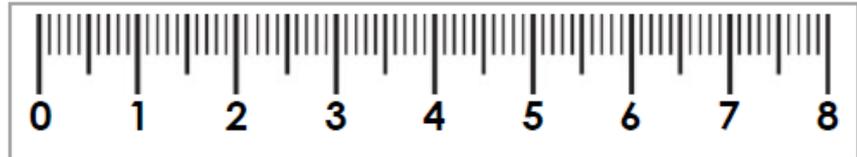

Questions 1 – 3: easy
Questions 4 – 6: harder
Questions 7 – 9: even harder

If you want an extra challenge:

Answer this question. Make sure you explain your answer using the words

I think.....because.....

4b. Rosie thinks her toy truck measures 8cm.

Explain the mistake she has made.

R

Write the answers in your home learning books and take a photo of your child doing some measuring if you can.
